

CE+T TRAINING - AGENDA

DAY 1

- Introduction to CE+T
- TSI technology
- Bravo inverter + Shelf (48Vdc vs. 110/220Vdc)
- Flexa 200 UPS
- T2S-ETH Parameters review
- T4S Parameters review
- TxS Modbus & SNMP: how to use?
- Manual Bypass operation and principles
- Remote off Operation and principles
- Battery charging & CCCV Algorithm
- Hands-on : commissioning of a 3-phases system

DAY 2

- ECI technology : leveraging the past & new improvements
- 10 series (Bravo10 & Sierra10) Datasheet review
- 25 series (Sierra 25) Datasheet review
- Monitoring – HW presentation IV GW / IV Slot, S, X
- Monitoring – Inview GW 2.0 software
- Monitoring – Software Suite Inview 5.0 (Presentation, Dashboard view vs. Site view, Parameters overview)
- Inview Modbus & SNMP: how to use?
- Hands-on : commissioning of a 3-phases system
- Other battery types : NiMH, NiZn, Lithium
- New concepts : Power Fusion, PMS functionalities, ...
